

RVFAV 0,6/1kV 1x300 K AL

Description

CONDUCTOR	Aluminium conductor (300 mm ²), class 2 according to IEC 60228.
INSULATION	Cross-linked polyethylene insulation, type XLPE.
SEPARATION SHEATH	Extruded PVC separation sheath.
ARMOUR	Double aluminium tape armour (0,5 mm of thickness), hellically over the separation sheath.
OUTER SHEATH	PVC outer sheath, type ST2 according to IEC 60502.

Identification of cores:	NATURAL
Outer sheath's colour:	BLACK
Cable marking:	TOP CABLE POWERHARD F AL RVFAV 0,6/1 KV 1x300 K AI IEC 60502 CE amd metro
Weight:	1.509 Kg/Km
Overall diameter:	33,0 mm

Comments:

This type of cable is designed, manufactured and tested according to IEC 60502-1
